Comments: (If possible, please reference section number and/or page number in document if applicable.)

- 1 I am opposed to removing the nuclear waste from where it is currently located, transporting it & storing it at Yucca Mountain. Some of the reasons for my opposition:
- (1) Yucca Mountain is unstable, an earthquake zone
- (2) Yucca Mountain is a sacred site for the Western Shoshone Indians
- (3) Transporting the nuclear waste is hazardous - accidents will happen - many people will be exposed to radiation - I don't believe your assertions that the casks holding the nuclear waste will not leak in case of an accident
- 2 (4) I think you should keep the nuclear waste where it is now, mount a huge research effort to study how
- 3 to remove the hazardous qualities of nuclear waste, stop nuclear power so that more nuclear waste is not continually being generated

Please note: For your comment(s) to be considered in the Final Environmental Impact Statement, your comment(s) need to be received by the Department of Energy by February 9, 2000. To the extent practicable the Department will consider comments received after February 9.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible; then secure with tape.
